GAME PLAN

The guide will list almost the best choice that are presented to you in-game with its corresponding effect (if it has one), while maximizing the scenes by providing you with save checkpoints in order to see the alternative routes. Just keep an eye on the following tags:

(RP) Standing for "Relationship Point", will matter how trusting the character towards you.

(LP) Standing for "Love Point", will matter how much the character is in love with you.

(FP) Standing for "Friendship Point", currently in effect for one of the male side-character.

[Trigger] Hidden Trigger that will affect future scenes and dialogues.

PS: When you are given a choice of two or more options to pick from, always choose the choice that give the girl you are trying to seduce the most points. Other than that, please enjoy!

Viewer discretion is advised!

The game contains adult content and thus you have to be the legal age according to your country.
