

## v41012 update

### step-by-step walkthrough

by Buddie the Security Guard (aka Trapezio)

So, you played the *v37011 update*, you followed my *v37011 walkthrough* step-by-step and *saved* after you grabbed the last **kamasutra page** in the east tower and went back to the entry.

Load your last *save*.

First of all, the author tells you that he added a *new item* in your **inventory**: the **crystal ball**.

“The **crystal ball** will tell you your completion percentage and the maximum amount of pages, scenes, hearts, and outfits you can have in the current update. Also, you can use the **crystal ball** for hints instead of the phone”.

So, let's start, now. You're in the entry: go outside.

Go east, then north to the upper right corner where the gate is: watch the scene.

Cross the gate and enter the woods:

Take the **heart container** (on the right bottom corner). You see a **safe** in the upper left corner, too, but you can't open it, at the moment.

Go east following the path.

You can see a **security access card** near a tree on the upper left. Grab it.

There's a **Kamasutra page** [Katherine's 5th] in the upper right corner: pick it up.

You can see a paper next to you on the left near a tree: pick it up and read it (it's a very important hint. It tells you where you can find a **Bible** – *in the chapel, 2nd row pew on the far east side*: remember it!). Moreover, there's a **coin** in the bottom right corner: pick it up!

Go back into the building, now. Watch the scene.

Go west, and down into the kitchen. Watch the scene.

Go to the east tower and down to the basement. Enter the door in the left corner: another scene will follow.

Go back to the entry. You'll see Andy going upstairs: follow him upstairs. Keep following him (go west). Watch the funny scene.

Before meeting the beautiful Kat in her room, go east. Go east, then south.

Enter the upper right door. Enter the bottom right door. You're in the east tower, upper floor, now.

Enter the door you last unlocked (green light over it):

Grab the **Kamasutra page** [Katherine's 6th] in the upper left corner. You see a **sparkle** in the **basket** in the bottom left corner: pick it up. You found a **skeleton key** (you can open the **chest** in the woods, now).

Read the **note** on the cupboard near the painting: it's a hint (it tells you where 2 **Kamasutra pages** are: *1 near the southeast candelabra in the chapel, 1 outside the building under a dead tree*).

Get out, go downstairs and outside.

Go back to the woods and open the **chest** in the upper left corner using the **skeleton key**. Yes, you found a **security chip**! Pick it up.

Go back. Before entering the building, search for the **Kamasutra page** under the tree:

The picture is showing you where it is: touch the tree and use the **shovel**. You find a **Kamasutra page** [Katherine's 8th]. Grab it.

Enter the building now. Go west and meet Katherine.  
Buddie will see you in front of the chapel. You'll go east.

Now you have to hide in order to get rid of Buddie: enter the **library** and hide behind the shelves (see the following picture):

Stay there and see Buddie entering the library. He won't see you and go north.

You can go now. Go south, go west and enter the chapel. You can look for the last **Kamasutra page**. Hit the **candelabra** in the bottom right corner: You find a **Kamasutra page** [Katherine's 7th]. Grab it.

Get out and meet your favourite nun! Go to the west tower, go upstairs and enter Kat's room.

Talk to Katherine. Watch the scene.

Go back to the chapel. Do you remember where the **Bible** was? Yes: *2nd row pew on the far east side*. Just hit the **sparkle**: you got the **Bible**.

Now, back to Katherine and talk to her. Use the **Bible**.

Watch the scene [Katherine's 3rd gallery scene]. You add a **red heart** to her; you can **play** new scenes with her, too.

Buddie will enter and lead you to the chapel. Now, go back to Katherine's room.

Talk to Katherine: **heart up** and use a **heart container** on her.

Go to the east tower. Go down to the basement.

Enter the door and watch the scene.

**SAVE** now. *This is very important* because you'll have to choose between **Elizabeth** and **Violet**: you have 4 **security chips** only, at the moment, and *you won't be able to remove them after you opened the door.*

So, in order to watch both of the scenes you should **SAVE**, choose a girl, watch the scene, **LOAD**, choose the other girl and watch the scene.

Insert every **security chip** you've got into the door you've chosen and open it. Enter and watch the scene. Now you can give her your **blessing** (hey!).

You can **LOAD** your **SAVE** and open the other door, if you want.

Go back upstairs, meet Andy, watch the scene and complete the update. See you next time!
