Main Walkthrough

This is the Main Walkthrough. The game does a good job of telling you want to do so you don't really need it. You can use it if you get stuck or need to find out how to unlock a specific picture, movie, scene or achievement. Some notes:

- Each action that increases stats only work under certain thresholds. **Example**: Watching a comedy movie with Ashley will increase her ❤️ stat by 1, but only while ❤️ is below 10. Once it reaches 10, you'll need to use another 'superior' action which in this case would be watching a romantic movie.
- During the weekend (Saturday and Sunday) some girls will go through a different schedule so certain actions will not work or replaced with another (**example**: Ashley will spend time with Sophia at the Mall on Saturday and in her room on Sunday. This means that the homework action is inaccessible on weekends).
- The game allows a great deal of freedom. You can work on all girls at the same time or one at a time you choose. A personal recommendation on the Sunday events is to unlock Sophia on the first Sunday since she takes the longest grind of all the girls (as of version 0.8.5). An on the second Sunday invite Emma so you can unlock the sunscreen to further advance her scene the next time.

Main Character

This is you! A 20-year-old guy, surrounded by hot women, all craving for your attention because you are… the Man of the House! ™

All the pictures, movies, scenes and achievements that aren't girl specific are on the Main Character's (MC for short) section of the phone.

Your character has three stats that you'll need to increase in order to go through every scene the game has to offer. The current maximum value is 50 for each stat.

- Body. To increase it you need to visit the **Health Club Location** and use the **workout machines**.
- Mind. To increase it you need to go through **online courses using the PC in your room**.
- Charisma. To increase it you need to visit the **Health Club Location** and use the **Tanning Room**. Unlike the other two you can only increase charisma once a day so start increasing it early. You can also buy perfume at the Shopping Mall to increase charisma by 10 points, but you can only use this method once.
