Water World Walkthrough

The game is a ‘sandbox’ where you can go freely on a number of locations and depending on some conditions you’ll be able to progress on different stories (quests).

In choice menus (conversations, actions, etc.) if you see a percentage next to a certain item, this is the probability you have of successful interaction. E.g. if you see it while trying to convince someone of doing something, this is the chance she will agree. Different skills have influence on the chance depending on the action you want to take. *(A rather limited for now set of)* Skills can be learned and improved on the computer in your cabin (2-7).

Quests and Events

There are two types of interactions with the girls - quests and events. Quests are story based and have steps that need to be completed in order for the player to progress. Events on the other hand are not required to be done and (usually) can be repeated. Events may have different outcome based on quests progression, other events or simply by chance.

Quests are progressed always with the ‘star’ icon! Even if the walkthrough says ‘talk with someone’, the action you need to choose is the star. The ‘talk’, ‘look’ and ‘do’ icons are for events!
